

✓ grocery-store-app has successfully been registered.

# Registration Details

Thank you for registering your application! To avoid any errors during implementation, we recommend that you review the following app registration details before continuing.

## OAuth2

When making an OAuth2 access token request, your `client_id` and `client_secret` are required in the authorization header. You must use one of the following redirect URIs when authenticating a customer using the Authorization Code grant type.

⚠ Your `client_secret` can only be accessed by request once you click Continue. Select the print icon to print your app details and secret to pdf.

Name	Details
client_id	grocery-store-app-db2d42170b2a88209c2bf03c0f6abc574081030443905330138
client_secret	<b>gDf8CzHOZv3KKpeeyP0fBNfR1jI64W8PM9fhzdw9</b> ⚠
redirect_uri	

## Permission

Your application is now granted access to the following APIs. When requesting an OAuth2 access token, you must provide the scopes associated with the registered API you need to access.

API	Scopes
Locations (Public) - Certification	
Products (Public) - Certification	product.compact

Your application now also has access to the following grant types and additional scopes.

Name	Details
Grant Type	authorization_code, client_credentials, refresh_token
Other Scopes ⓘ	

## App Details

Your application is now registered with the following details.

Name	Details
App Name	grocery-store-app
App Description	We are students working on a class project. This app WILL NOT GO ON PRODUCTION. We wanted to develop an app that will display your special offers, track the user's purchases, offer suggestions for the items purchased, and offer guidance on the sustainability and expiration dates of the purchased items.
